

## RFP Development of LUCELEC Corporate Website

St. Lucia Electricity Services Limited (LUCELEC) invites qualified consultants to submit proposals for the redevelopment of its corporate website, [www.lucelec.com](http://www.lucelec.com) [1]. The project will deliver a modern, secure, responsive and user-friendly website supported by a robust content management system that enables efficient content updates by non-technical staff.

The successful consultant will be expected to assess the current website, recommend improvements to content and user experience, redesign and redevelop the site, implement the CMS, support content migration, ensure appropriate security and data protection standards, provide user training and documentation, and deliver post-launch support and maintenance services.

Interested consultants should review the full [Request for Proposals](#) [2] document for detailed requirements, proposal format, evaluation criteria, and submission instructions. Proposals must be submitted, no later than **4:30 p.m. Atlantic Standard Time on Wednesday, July 29, 2026**.
