

RFP - Troumassee 10MWac Solar PV, 13.3MW/26.6MWh BESS, and Substation Project

LUCELEC’s Planning & Projects Department
Cul De Sac, Castries,
Saint Lucia, WI

Date: November 10, 2025

Official Notice: Issuance of Request for Proposals (RFP)

Troumassee 10MWac Solar PV, 13.3MW/26.6MWh BESS, and Substation Project.

The St. Lucia Electricity Services Limited (LUCELEC) hereby announces the [official issuance of the Request for Proposals \(RFP\)](#) [1] for the Engineering, Procurement, and Construction (EPC) of its Troumassee 10MWac Solar Photovoltaic (PV) facility, 13.3MW/26.6MWh Battery Energy Storage System (BESS), and associated 66kV/11kV substation.

This RFP represents a significant step in LUCELEC’s ongoing commitment to advancing Saint Lucia’s energy security, grid stability, and climate resilience. The project will be located on the southeast coast of the island at Troumassee, Micoud, and will be directly connected to LUCELEC’s transmission network.

Prospective tenderers are invited to [click here to download the full RFP documentation](#) [2] which includes:

- [Comprehensive Instructions to Tenderers](#) [3]
- Project Scope and Technical Specifications
- Engineering Design, Drawings and Reports
- Required Forms and Schedules

A detailed schedule of all required documents and appendices is provided in the attached Excel file, "List of Schedules". This schedule outlines the mandatory forms, technical and commercial schedules, specifications, and supporting documents to be submitted as part of your proposal.

Key Milestones and Dates

Milestone	Date
-----------	------

RFP Issuance	November 10, 2025
Return of Receipt and Confirmation Form Due.	November 17, 2025
Site Visit	November 24, 2025
Deadline for Questions	November 27, 2025
Answers and clarifications posted for all bidders	December 10, 2025
Proposal Submission Deadline	December 19, 2025

All proposals must be submitted in accordance with the instructions and timelines specified in the RFP. Tenderers are reminded to ensure completeness and compliance with all requirements, as outlined in both the RFP document and the schedule of submissions.

LUCELEC is committed to a transparent and competitive tendering process. The LUCELEC Tenders Evaluation Committee (TEC) will evaluate all submissions based on technical merit, commercial value, and adherence to the project's objectives and requirements.

For further information, clarifications, or to confirm your intention to submit a proposal, please contact LUCELEC's Tenders Evaluation Committee at tcsecretary@lucelec.com [4].

We look forward to receiving your proposals and to partnering in the successful delivery of this landmark renewable energy project for Saint Lucia.

Yours faithfully

ST. LUCIA ELECTRICITY SERVICES LIMITED
